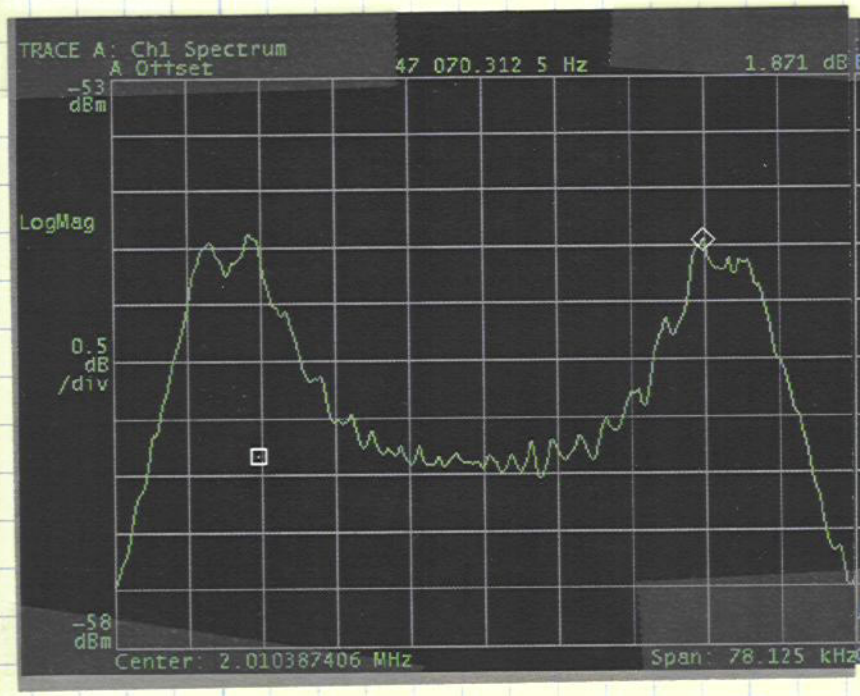
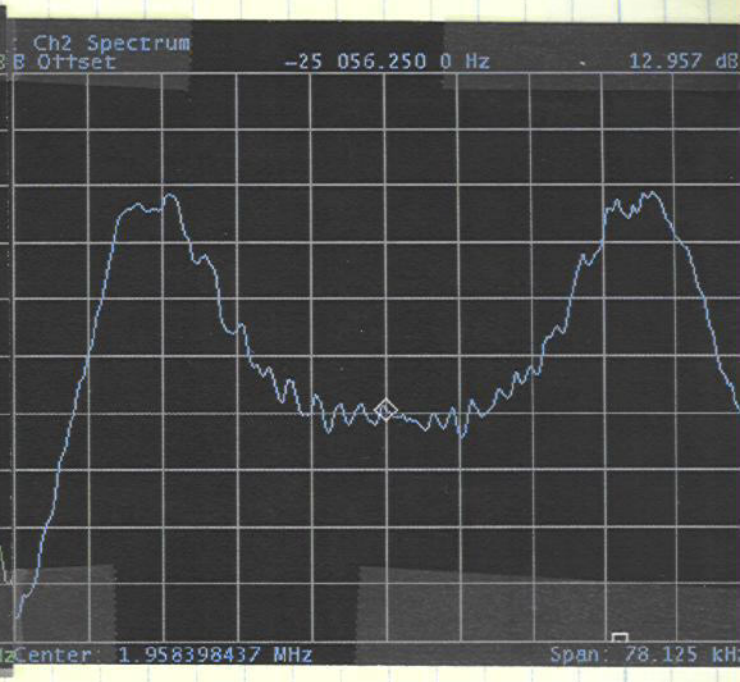
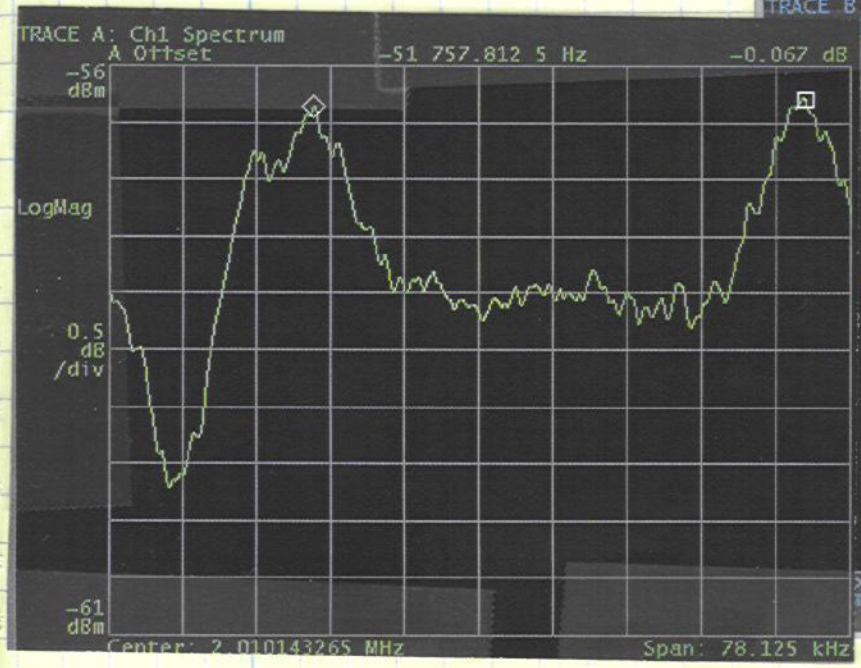
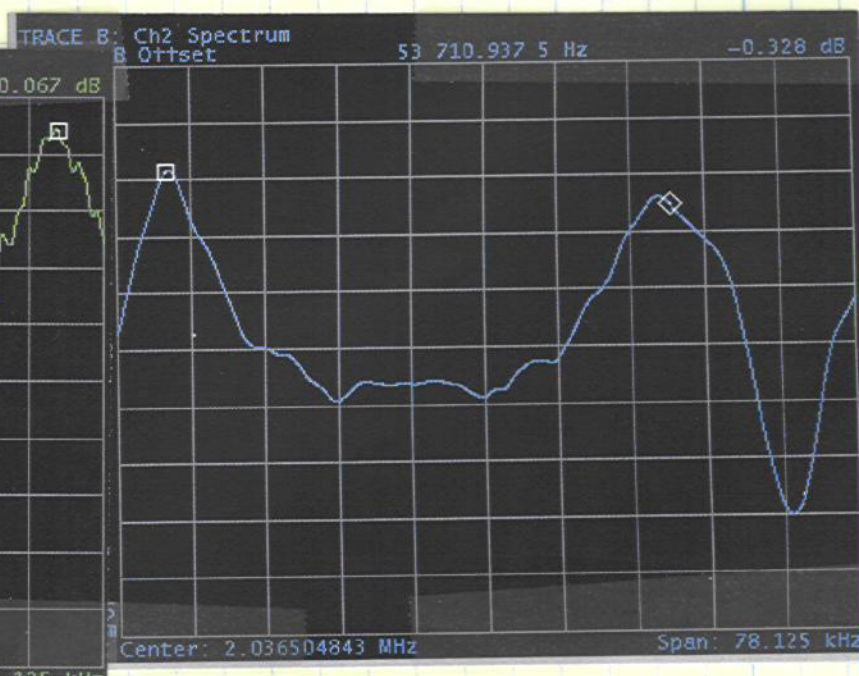
Typical schottky spectra 7 pm – 1 AM
May 26 May 27

See also WCM data on p.75, taken during this time.









after a few minutes in the store, modulation structure diminishes, but lineshape remains.
Injected w/ RF off to decide if ~~either~~ RF is somehow cause of this unusual line shape.
Surprisingly, lineshape is the same w/ RF off
also ~~unpo~~ surprising, lifetime got worse w/ RF off.
